Please run the application in iOS 14 simulators, since iOS 15 simulators introduced too many bugs regarding navigation controller and tabbar controller.

Changes

A. Included 30 recipes to start with(Previously had no recipe)

B. iOS 14+ (Previously iOS 13+) support

C. Widget iOS 14+ (Previously iOS 13-). Due to too many bugs in new iOS with older widgets, we had to discard old widget style and move on to new widget.

D. Privacy agreements was changed to CopyRight, since recipes were added inside the application.
